cleek
for every mood

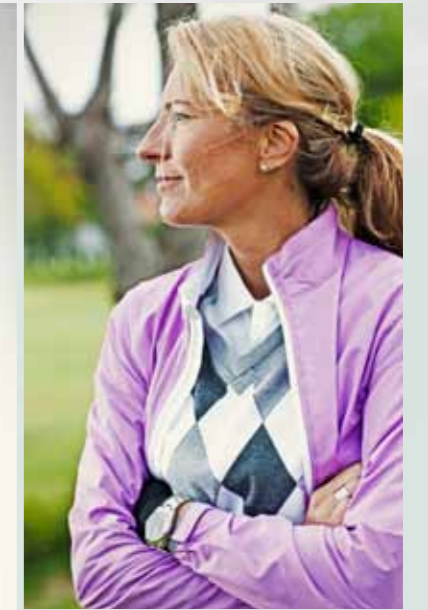

What we have learnt from our Solheim Cup Team

Abacus Sportswear has worked with the European Solheim Cup Team since 2007. This teamwork with the world's most talented players has taught us an immense amount. That they are extremely particular about function, flexibility and playability is obvious. The world's best players demand the world's best functional clothing; it's as simple as that. But that's not enough. The clothes must be good looking and sit perfectly as well, the whole round. They should promote well-being and strong self-confidence. In other words, all that leads to good

Don't forget to notice the scenery and listen to the birdsong during your round. Golf is so much more than just hitting a small ball. It's here that many lovely moments and experiences are hidden. At Abacus Sportswear you'll find clothes that will help you enjoy all these moments. And help you enjoy yourself.

Enjoy the
moment

Freedom *of* motion

We keep you warm when it's cold

We keep you dry when it's wet

We keep you confident when it's tough

We keep you cool when it's hot

We keep you focused on the game

We let you swing with ease

We keep the spirit flowing

We give you Freedom of Motion

The people of abacus®

abacus cleek

Some things, the less you think about them,
the better it is.

abacus® Cleek golf trousers are one of those things.

Things that just exist without making any fuss.

The fit is perfect. They sit well and comfortably.

The material is light, weighs nearly nothing.

And a little bit stretchy so you can swing and move
completely unhindered.

If it's hot, abacus® Cleek feels cool because they let
out dampness from the body.

During all the years we have been developing
good looking and functional golf clothing, we have
seldom been prouder than we are about abacus®
Cleek. Try a pair and you'll understand why.

**Probably the best
pants in golf.**

**You won't feel them.
You won't hear them.
In fact, you won't think
about them at all.**

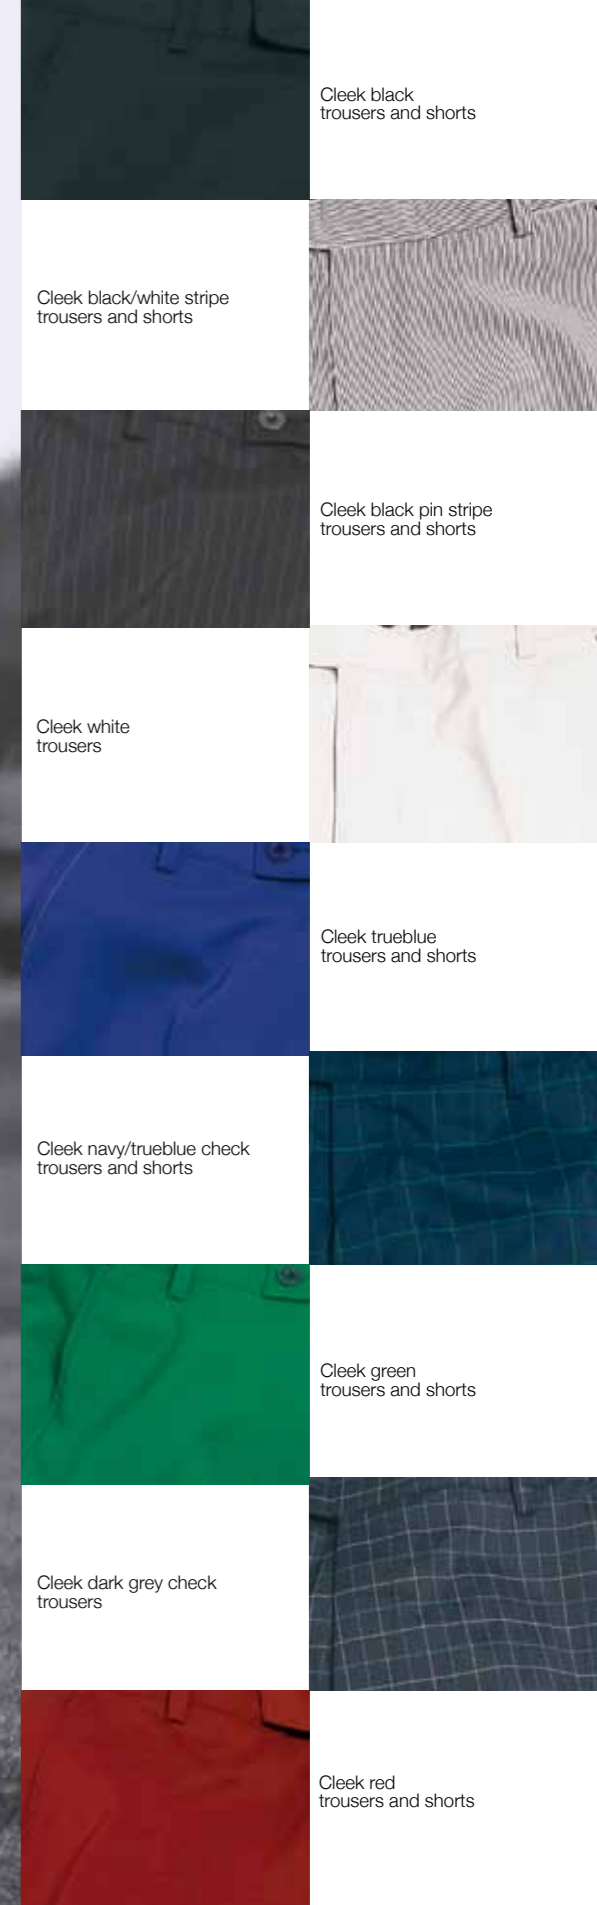

In everything we do we try to encourage your game and good spirits.

With abacus® Cleek we give you complete freedom of motion but also a large helping of choice.

You can choose abacus® Cleek as a long trouser which is available in 12 different colours/patterns.

As shorts abacus® Cleek is available in 8 different colours/patterns.

Stay

Many think mostly about wind and rain when talking about functional and comfortable golf clothing.

At abacus® we think just as much about sun and stifling heat.

Even then you should be able to feel good and perform to your maximum.

We use the most qualified materials that are available today.

The polo on this page for example is called Carlo Polo and breathes, protects against UV rays and keeps unpleasant smells away, thanks to the fact that the fabric contains natural, antibacterial minerals. Did we mention that the stretch is exceptional as well?

abacus barton

NEW

This is how it looks in dry weather.

It's called Barton Stretchlite™ and is our latest contribution for golf in the pouring rain.

It keeps you dry for at least 36 holes.

It breathes so that you will feel fresh the whole time.

It gives you full freedom of motion in your swing because of the incredible stretch and it only weighs 270 grams.

It's also silent, which helps you focus on your game.

When it's not raining, it lives in a small pouch that hardly takes any room at all.

As a golfer you'll quickly understand just how big this news is.

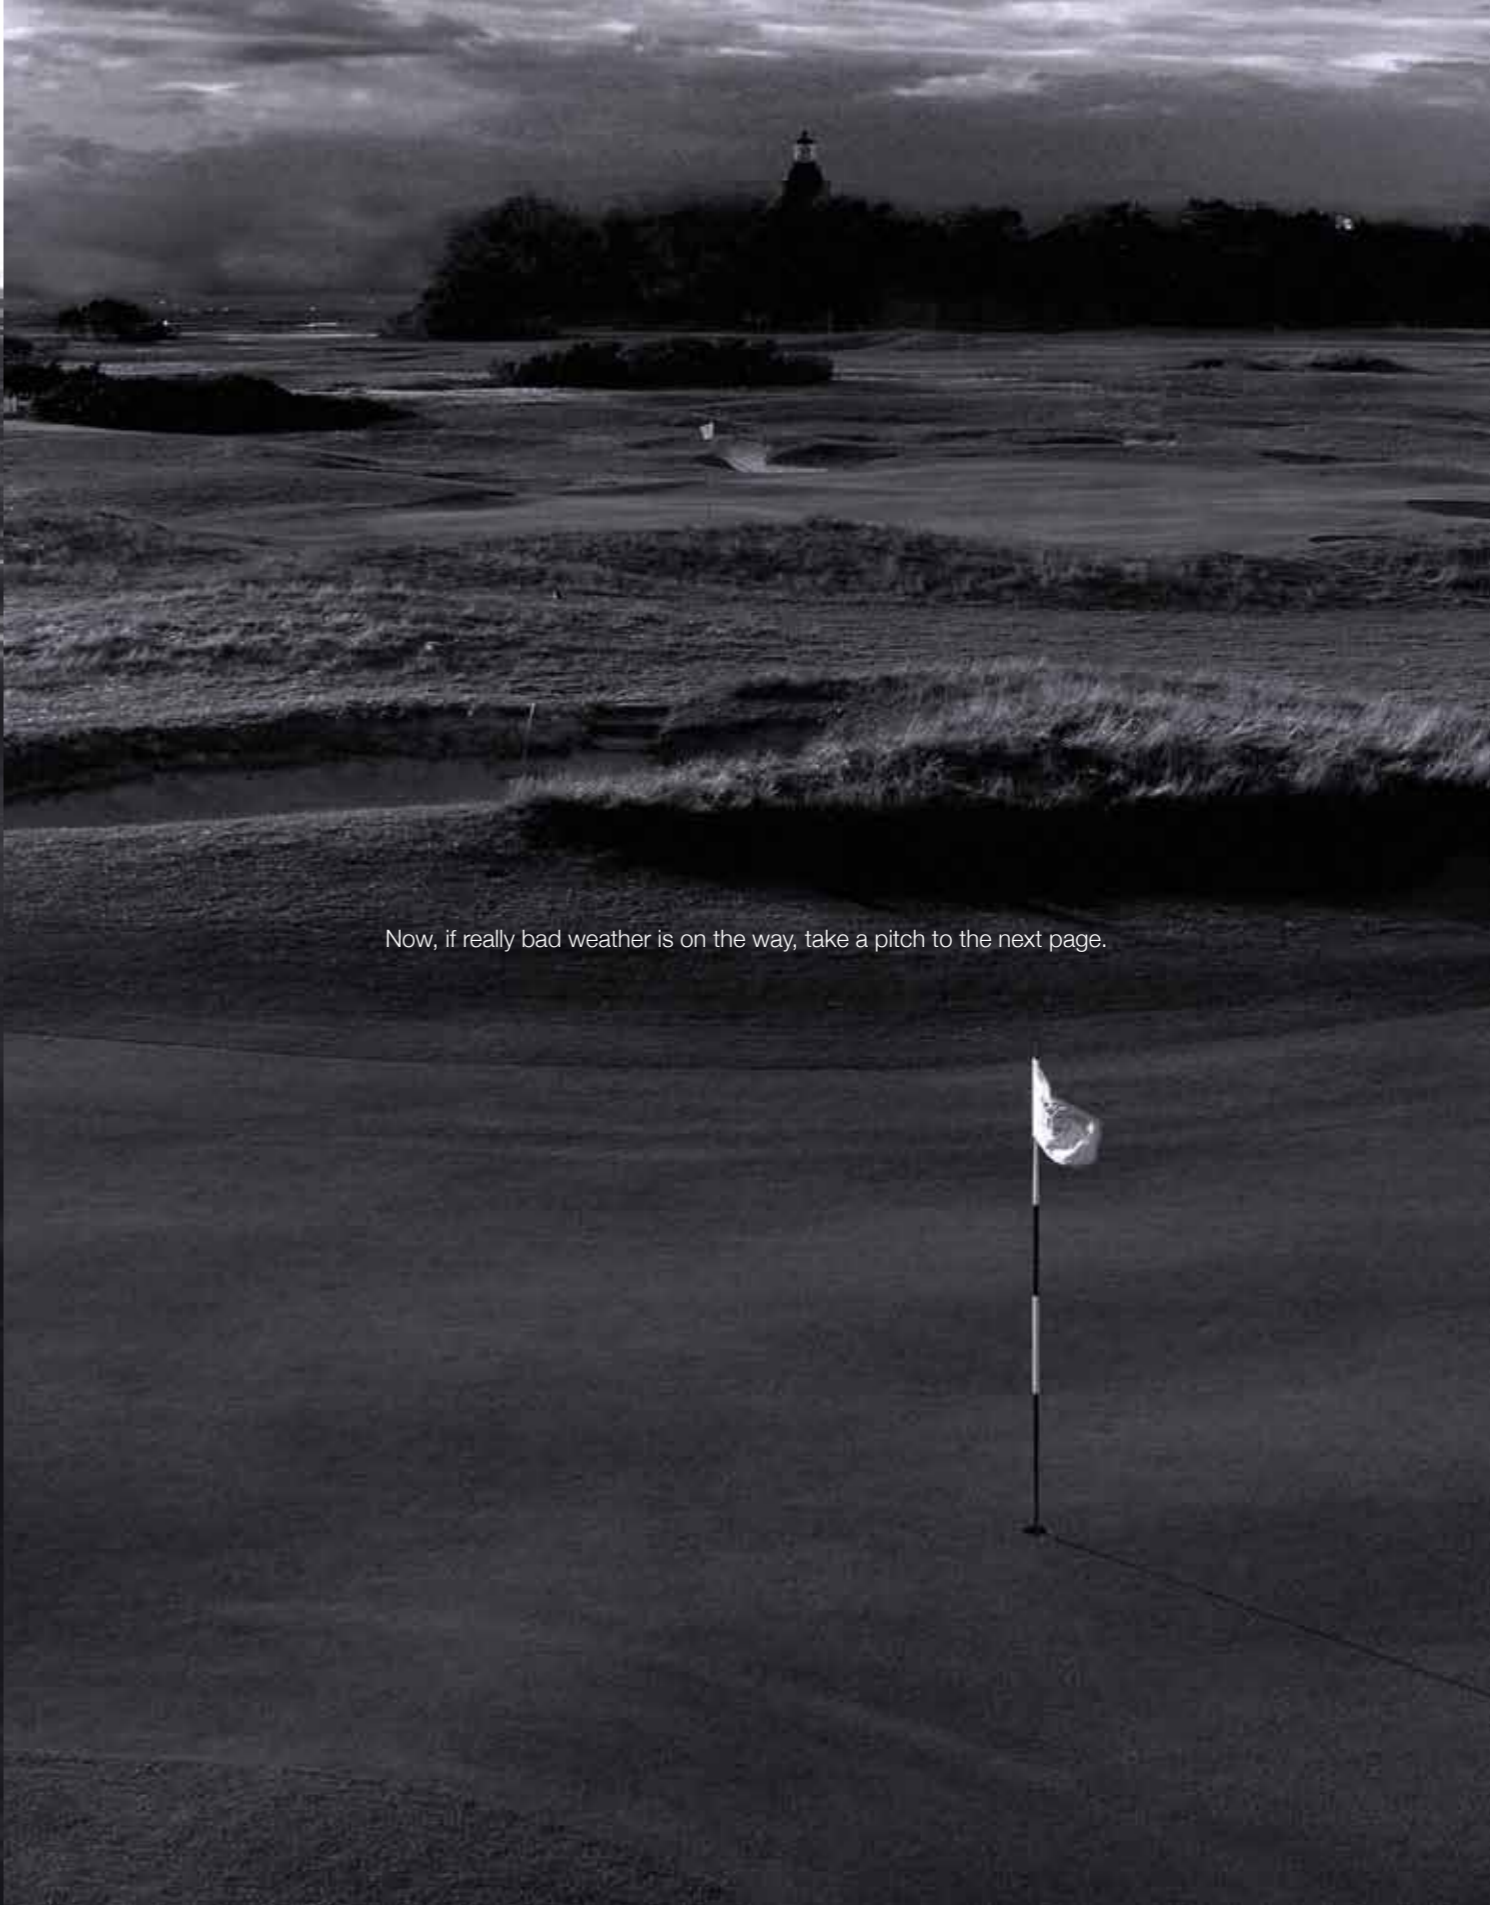

And this is how it looks in rain.

Barton Facts:
10 000 waterproofness.
10 000 breathable.
Extraordinarily light, only 270 g.
Exceptionally stretchable.
Extremely packable.
Freedom of motion.
By abacus®

abacus® Barton rainjacket comes in Trueblue/Black or all Black. Only men sizes.

Now, if really bad weather is on the way, take a pitch to the next page.

abacus pitch

abacus® Pitch is definitely the ultimate rain garment in golf today.

Of course it protects you from rain for a whole day on the course. It lets your body breathe perfectly. And what's just as important: it lets your body swing with ease.

abacus® Pitch has a unique formula of waterproofness, breathability, stretchability, lightness and fabulous design.

That's why the European Solheim Cup Team, The English Golf Union, The Danish Golf Union, The German Golf Union, The Norwegian Golf Federation and a number of tour players prefer to play in abacus® Pitch.

The rain jacket is completed with abacus® Pitch rain trousers with matching quality and features.

abacus gorey

NEW

More exciting news in 2012! The abacus® Gorey rain jacket meets the highest standards in waterproofness, breathability, stretchability and comfort.

Even in the worst conditions abacus® Gorey will provide freedom of motion.

But even freedom of choice is a great feature of abacus® Gorey. The rain jacket comes in 5 colours for women and 5 for men. Match with abacus® Gorey rain trousers which come in 2 colours. The choice is yours.

abacus®
COUNT ON IT

after rain comes sun

We are extremely proud to be an official part of the successful European Solheim Cup Team 2011.
Thank you for trusting us again, through thick and thin.
